To: Debbie Miller; Jason Godeaux
Subject: fyi - temperature information from other EPA regions

Attached (and linked) are a few resources that other Regions provided on one of our recent internal conference calls. I mentioned to Debbie this morning, but I can't remember if I mentioned to Jason last time we chatted.

- "White paper" from a few years ago that the state of Kansas prepared. I don't know the specific outcome, but I think Region 7 said Kansas is also considering temperature-related revisions in its next WQS revision.
- Recent, peer-reviewed article by the Connecticut state staff and USGS.
- Links to documents/presentations from meetings in 2012 and 2014, hosted by EPA Region 1 (Boston) and other partners.
 - o <http://northatlanticlcc.org/resources/meetings-and-workshops/stream-temp-modeling-meeting-II>
 - o <http://northatlanticlcc.org/groups/aquatic-technical-team/meetings/temperature-data-and-modeling-meeting>

I'm not sure if any is relevant to your projects, but it is all more recent than EPA's criteria recommendations from the 1970s ☺

Diane
